Mr. Scofield's experience and services as and has made the people acquainted with his merits. His locality also is such as to add strength to the propriety of electing him. We know that other candidates are seeking this office, and it is probable that seductive influences will be brought to bear an their favor. But we do not believe that they will be able to create a public sentiment against the importance of electing a first-rate man to that position ; and we are vorable, can be selected, that in point of Mr. Scofield.

It is time, and this will be the occasion, tempts to elevate interior men to important and money influence of aspirants and their hopeful backers. We know the position is one to be coveted and aspired after, but the desires of no one should be encouraged who is not fully qualified to fill the position in the ablest and most satisfactory man-

### ELK COUNTY.

The vast wealth of this county is scarcely known or appreciated, even by our own citizens. Besides the vast timber lands we have coal in abundance which when fully developed will make this one of the most important counties in the State.

We give a brief synopsis of the development of the coal :

TANNERDALE COAL CO.-The colliery of the company is situated on the south side of the P. &. E. Railway, their mines east of St. Marys. The lands of the Company comprise 200 acres, all underlaid with valuable coal, well adapted for steam purposes, good as a grate coal, as well as for the manufacture of gas. ### Lincoln Correspondence.

LINCOLN, PA., Nov. 19, '68. DEAR SIR:-It is often said that "the man is public benefactor, who causes two blades of grass to grow where one grew before." .It is a ommonly admitted fact that any capitalist who invests his money to a considerable extent in improving and developing the county is also doing a public good. These propositions being true, it seemes a matter of gratulation to the inhabitants of a community where a working man ommences to work a farm in the woods, or a land owner mak s a move to open up any part of the wilderness. I came to this place last April, and, at your request, will tell you and your readers something of the objects of the ompanies which I represent, as Surveyor and Land agent. I shall use the name of Dodge & Co., as they are most generally known.

The land owned by them in Cameron, Elk & Clearfield counties would make two or three townships, and contain considerable quantities of fine timber.

This fine timber is being removed from year to year. For the past few years under the supervision of Mr. J. A. Knapp. During the Spring of 1868, some ninety millions of feet were floated down the Bennett's Branch alone, by different parties-much of it by Dodge & Co.

These lands are nuctured by the Sinnamahon ing and West Branch, lying on Trout Run, Mosquito Creck, Medix Run, Mix Run, Wykoff Run, First Fork &c.

We have many thousand acres of good upland farm land, which it is proposed to offer for sale in small lots to actual settlers only. It is our wish to get in industrious, sober and moral men. Such as shall be disposed to encourage and support schools and churches. The lands are offered at the low price of from \$3 to \$5 an acre, and to some extent a credit will be given for

At this point we have built a temporary school house, and to-day a good school is in operation with some 18 scholars

For some months we have enjoyed the preaching of the Gospel or Sunday school every Sun-

One thousand dollars has been placed at our call to put up a building for schools and church purposes, which we hope to enjoy by May 1st, 1869.

Two steam saw-mills and one steam shingle mill are located within one and a half miles of us, and lumber for building is easily obtained. Also there is good opportunity to get employment for such as wish to "work out" part of the

Our supplies and mail come in promptly from Driftwood Station. The mail being usually prought up from four to six times a week.

It seems to me that every strong and healthy man that wants to buy land cheap, and work a farm, and that expects to work, can do well here, and I shall be glad to see any such men and will cheerfully correspond with them.

We do not invite any man who wishes to work or hunt on Sunday, or who wants anything but to earn and get an honest living among us, We are ready to encourage and help all who come, and in any practicable manner, smooth

We intend and expect to have as good educational advantages as is found most anywhere in our common school system. The directors of ment is properly welcome by the people whom we have come.

I might mention to you that when we moved women and children listened to a sermon by Rev. Mr. Rafter, and ten persons partook of the communion. We have arrangements with Rev. Mr L. BIRD. two weeks.
